It's a fact that many bikes are written off by insurers each year as they are uneconomic to repair. Very often there is a gap between what the insurers pay out and what you may still owe on finance or what it will cost to replace your bike.

GT GAP INSURANCE fills the gap, protecting you financially from having to find the difference. GAP stands for Guaranteed Asset Protection and the GT Blue Ribbon plan lasts for up to five years which means whatever happens there is no reason for you to be off the road or out of pocket.

The best time to take out **GT GAP INSURANCE** is when you are buying your bike so ask about it now.

The specialist insurance that removes your financial risks from write-off's and theft.

REPLACEMENT BIKE

Let's say you paid £5500 for your new bike and then two years later it was written off. The insurers may value it at £3000. You would be short by £2500 but NOT with GT GAP INSURANCE which pays you the difference which means you can buy another bike.
 $£3000 \text{ INS} + \text{GAP } £2500 = £5500$
GAP pays the difference to protect you from loss.

PAY OFF THE FINANCE

*In event that your bike is stolen and not recovered, with **GT GAP INSURANCE** you will ALWAYS be paid enough to clear the outstanding finance*

*With over 60,000 bikes stolen and not recovered each year and 40,000 write offs you can see why **GT GAP INSURANCE** is a sound investment.*
 $£4500 + \text{GAP } £1500 = £6000$
Gap PAYS THE £1500 TO CLEAR THE FINANCE
